

How We Help the Environment

On Martin Luther King Day our school goes to clean up trash in the city or plant trees for the environment. Another class picked up litter and made the ground look prettier. These both help the environment.

We are planting trees

This is us after we planted trees

PAPER RECYCLING

We recycle paper at our school. Every classroom has a recycle bin that we use to put paper in. Every week the 4th grade goes around to all the classrooms and collects them to recycle.

This year Clark and Meyer are recycling bottles. Meyer brings a bottle of Gatorade every day and then Clark and Meyer put it in a locker and then we save it and recycle it. We are trying to get more people to give us bottles to recycle.

CLARK, MEYER, AND ELLIS
